ABOUT ME

Professional Summary
Computer Science Engineering student with hands-on experience in Data Analytics, Power BI, Full Stack Development, and AI/ML projects. Skilled in Python, Java, SQL, Power BI, Excel, React.js, Node.js, MongoDB, and Scikit-learn. Experienced in developing dashboards, data-driven applications, recommendation systems, REST APIs, and database-integrated applications. Strong problem-solving and analytical skills with practical project experience and participation in Smart India Hackathon.

EDUCATION

D Y PATIL COLLEGE OF ENGINEERING AND TECHNOLOGY KASABA BAWADA,KOLHAPUR

- B.Tech – Computer Science Engineering | Expected Graduation: 2027
- CGPA: 7.9/10 (Current)

PROJECT

EduVerse | AI-Powered Student Career & Placement Platform React.js | Node.js | Express.js | MongoDB | JWT | REST APIs | AI/ML

- Developed an AI-powered student platform for career prediction, skill-gap analysis, placement readiness, and personalized career recommendations.
- Built React.js interfaces and Node.js/Express REST APIs for student profiles, analytics, authentication, and dashboards.
- Integrated MongoDB for managing student academic, skill, project, certification, and placement-related data.
- Implemented analytics and recommendation logic to generate readiness scores, skill-gap insights, and career recommendations.

Internship Recommendation App Java | Android Studio | XML | Recommendation Logic

- Developed an Android application that recommends suitable internships based on skills, education, interests, and career preferences.
- Implemented personalized recommendation logic to match student profiles with relevant internship opportunities.
- Designed a simple and user-friendly interface for entering user preferences and displaying recommendations.

Car Rental Management System Java | JSP | Servlets | MySQL | GlassFish

- Developed a web-based car rental management system with modules for user registration, vehicle management, booking, payments, and administration.
- Designed and integrated a MySQL database for users, vehicles, bookings, and rental records.
- Implemented backend business logic using Java Servlets and database connectivity.

TECHNICAL SKILLS

- **Programming** Java , Python , C++, C
- **Data Analytics** Data Analysis, Data Cleaning, Data Preprocessing, Pandas, NumPy, Matplotlib
- **BI & Visualization** Power BI, Power Query, DAX, Microsoft Excel, Dashboard Development, Data Visualization
- **Database** MySQL, MongoDB, SQLite, SQL Queries
- **AI/ML** Machine Learning, Scikit-learn, Recommendation Systems, Predictive Analysis
- **Frontend** HTML5, CSS3, JavaScript, React.js, Bootstrap
- **Backend** Node.js, Express.js, Java, REST APIs
- **Core CS** Data Structures & Algorithms, OOP, DBMS
- **Tools** Git, GitHub, VS Code, Cursor, Android Studio

ACHIEVEMENTS / CERTIFICATIONS

- 3rd Prize – MINDSCAPES 2026 State-Level Project Idea Competition
- Smart India Hackathon 2023 – Top 25 Team
- Placement Coordinator – Training & Placement Cell
- Data Science Certification
- Java & Web Development Certification
- Networking & Cloud Virtual Internship – Juniper / EduSkills

SOFT SKILLS

- Problem Solving • Analytical Thinking • Team Collaboration
- Communication • Time Management • Leadership
